Online Flashcards - Test your knowledge and target weak areas using the online flashcards. Complete with the option to "star" topics to return to, the flashcards are an effective way to confirm understanding and identify any gaps you may have. Accessed using the menu [Study Aids / Flashcard Games](#).

Simulated Exam Quizzes - These are timed quizzes that feature questions at random from the entire curriculum of exam topics. You can choose 10, 25 or 50 question options, and they are timed to simulate how long per question you get in the real PMP® exam. These are powerful tools for boosting your confidence and preparing you for the exam. Available from the menu [Study Aids / Timed Quizzes](#).
